### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Matt Denehy on 3-28-06.

The application has been amended as follows:

In the specification:

Page 1, first sentence after "October 30, 2001" insert --, now US Patent 6,588,766--.

In the claims: (note the most current listing of claims is identified as "Letter 9/9/05" in edan).

Claim 11, line 1, delete "For" and insert --In--.

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not show the combination of limitations required by the claims. As noted before, claim 11 requires all the limitations of Claim 1 in Patent 6,325,388 in addition to additional limitations (i.e. is narrower). Yoshida '208 has been cited as showing a gasket 86 between a first component 82 and a second component 83 in a vehicle transmission. The gasket comprises a flat body with plural openings and apertures and has at least one polymer patch 101 and 102. However, as seen in Figures 27-30, the patch is formed according to the openings 90 on the components. So, while the patch surrounds channel 93, it is also provided on other portions of

Art Unit: 3673

the gasket not surrounding the channel. Therefore, Yoshida does not disclose the parallel surfaces of the body being planar except in the area of the patch surrounding the channel apertures as required by the claims. And, there does not appear to be any motivation to modify the gasket in the manner required by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alison K. Pickard whose telephone number is 571-272-7062.
